Learnova VR & AR Academy

Virtual Reality (VR) and Augmented Reality (AR) are popular tools for education and training. They simulate real-world scenarios, provide hands-on training, and enhance student engagement. These technologies benefit learners aged 10 to 24, as schools and universities integrate AR and VR into their curriculum, teaching students to create and use these transformative technologies to make theoretical into practical. By using VR and AR, students can learn and experience things that would be difficult or impossible to replicate in a traditional classroom setting, making these technologies valuable additions to modern education.

Academy Admission Strategy

Learnova aims to provide an immersive learning experience and facilitate a smooth transition for students into its academy courses.

Strategic Approach to Student Admissions at Learnova Academy

Initial Engagement at Schools (Certificate Courses) :

- ✓ Conduct free demo sessions for school management, teachers and students.
- ✓ Showcase VR Interactive Experience (e.g., Space Travel, Human Anatomy, Science Lab, Virtual Paintings, Virtual Programming) for 15 min to students.
- ✓ Organize one-day VR Workshops (Certificate Courses) at schools featuring the same VR applications with Global International Certificate.

Initial Engagement at Colleges (Certificate Courses) :

- ✓ Conduct free demo sessions for college management, professors and students.
- ✓ Offer VR Workshops for college students majoring in Engineering, Medicine, Arts & Sciences, Nursing, and other Medical fields at their premises.

Transition to Academy (Diploma and Certificate Courses):

- ✓ After VR Experience and VR Workshops at their premises, students can seamlessly transition to Learnova Academy.
- ✓ Diploma courses are designed to complement practical learning of their curriculum. Certificate Courses are for VR Workshops concept.
